St. Louis, Mo., December 6th, 1889. Agreement made this day by and besenting the National Farmers' Alliance and Industrial Union on the one part, and the undersigned committee representing he Knights of Labor on the other part. Witnesseth: The udersignee committee representing the Knights of Labor having read the demands of the National Farmers Alliance and Industrial Union which are embodied in this agreement, hereby endorse the same on behalf of the Knightts of Labor, and for the purpose of giving practical effect to the demands herein set forth, the in harmony with the demands mutually agreed. And it is further agreed, in order to carry out these objects, we will support for office only such men as can be depended upon to exact these principlese into statute law uninfluenced by party caucus. Na-tional Economist, Vol. 2, No 4, page 214.

Is it not clear from the above agreement that any member of Congress who is a member of the Alliance commits perjury if he goes into a caucus of either of the great parties? If he is in any degree influenced by party caucus he is perjured. There is no escape from

with crime and without an element of statesmanship, to worm himself by political trickery into high position, is not only an impediment to the work, but a crime against the Order. A majority of the members of the General Assembly are Alliance men, and they could have elected a clean and able man to represent our Order in the Senate and push our measures to success. All was lost by the treason of one man, Senator Stokes, president of the State Alliance. How and why?

On Friday morning, December 5, 1890, the following appeared in the Charleston World, the organ of Tillman and

Irby: "What I have seen and heard to-day confirms me in my previously expressed opinion that State Senator J. W. Stokes, who is also President of the State Farmers' Alliance, will cut no figure in the fight for the United States Senatorship next Tuesday; but that on the contrary he is being carefully groomed for the Governorship in 1894, when Tillman is more than likely, as I have already pointed out in these columns, to succeed the Hon. M. C. Butler in the United States Senate.'

The Tillmanite who inspired this swallowed the bait with avidity, as the would have to go with the wind. They sequel shows. On the night of the of about forty Alliance men, which was presided over by Senator Stokes, presi-dent of the State Alliance. A ballot was taken, with Donaldson in the lead, next Irby, then Keitt. Friday morning the sembly would be present and select an Alliance candidate. A committee was appointed to wait on Donaldson, Irby and Keitt and get them to state in writ-ing their position on the principles and mands of the Alliance, to be read before the caucus. President Stokes said to the writer that his position was well known, but the position of Donaldson and Irby was not; hence the request that they be put in writing. I put mine in writing and handed it in. Senator Stokes, president of the State Alliance and presiding officer of the caucus of Alliance men on Saturday night, instead of convening the Alliance on Monday night, as agreed, led off into a caucus of Non-Alliance men, Tillmanites: from which caucus Alliance men who did not support Tillman were excluded, and into

2. His second proposition, as well as stand or falls with it. The imputation of perjury to Senator Irby, therefore, is not justified in the premises. Senator Irby, whose record as an Alliance man, it seems to me, will suffer no disparagement by comparison even with Col. Kiett't, proposes to work for the Alliance demands through the Democratic party. Col. Keitt's political conscience is not offended by the party caneus clause; Irby's is-that is the whole of it. In our judgment the the amount is about \$3,000,000. The shameful insinuations and offensive ground of the contest is that the notes epithets aimed by indirection against were given for binders, with a contract his brother Alliance man by Col. Keitt that repairs should be furnished free, are wholly anworthy and inexcusable upon any conceivable principle either of public utility or of Alliance polity. But Senator Irby is abundantly able

to take care of himself, even if it were probable that the general public, to be that the new company is a trust and is whom Col. Keitt has appealed this case or distinctly Alliance jurisdiction, would not make just discrimination

3. His third proposition follows by Independent Reaper Company, as in plication from the second and falls to the ground with it, but the Colonel must not evade the logic which he has invoked. If Senator Irby is guilty of perjury, as charged by Col. Keitt unler the terms of the agreement quoted, then is every Alliance member of the General Assembly involved in the same condemnation, Col.
